Overview

Using Copilot to write code

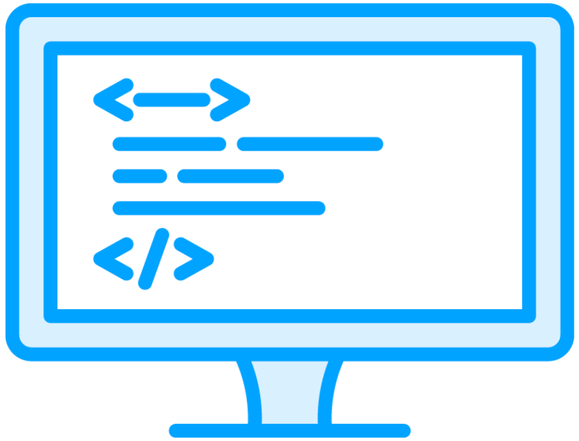
Using Copilot plugins

- You can even create a song using Copilot!

Using Copilot visual and audio capabilities

Using Copilot to Write Code

Microsoft Copilot and Code



Microsoft Copilot can understand and write code

You can ask it to

- Create code or scripts from scratch
- Convert code from one language to another
- Explain existing pieces of code for you

Microsoft has a dedicated Copilot for developers and IT Professionals with additional features

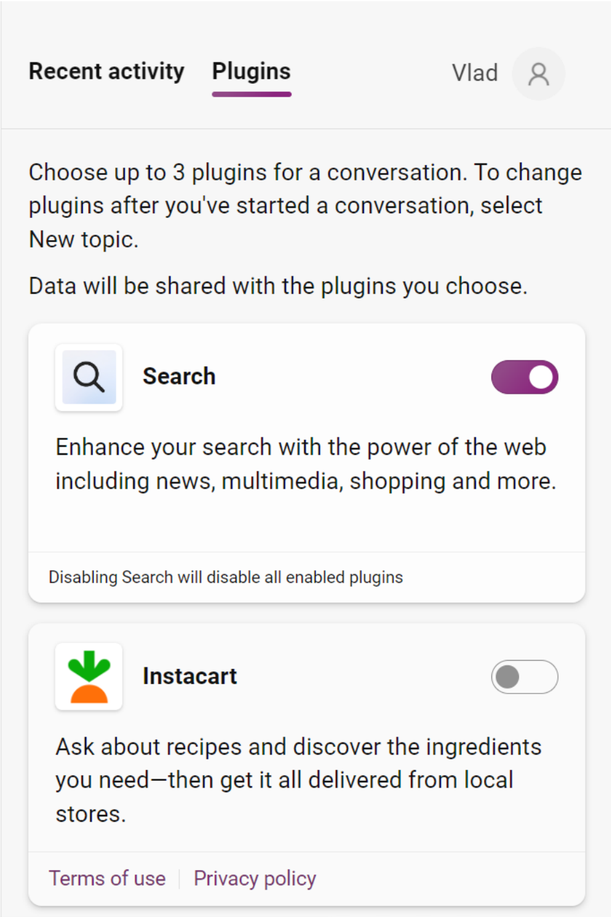
- GitHub Copilot
  - Paid offering

Demo

Using Microsoft Copilot to work with code

Using Copilot Plugins

Copilot Plugins



Microsoft Copilot offers different plugins to enable deeper integrations

- Instacart
- Kayak
- OpenTable
- Suno
- and more!

Plugins only work with personal Microsoft accounts

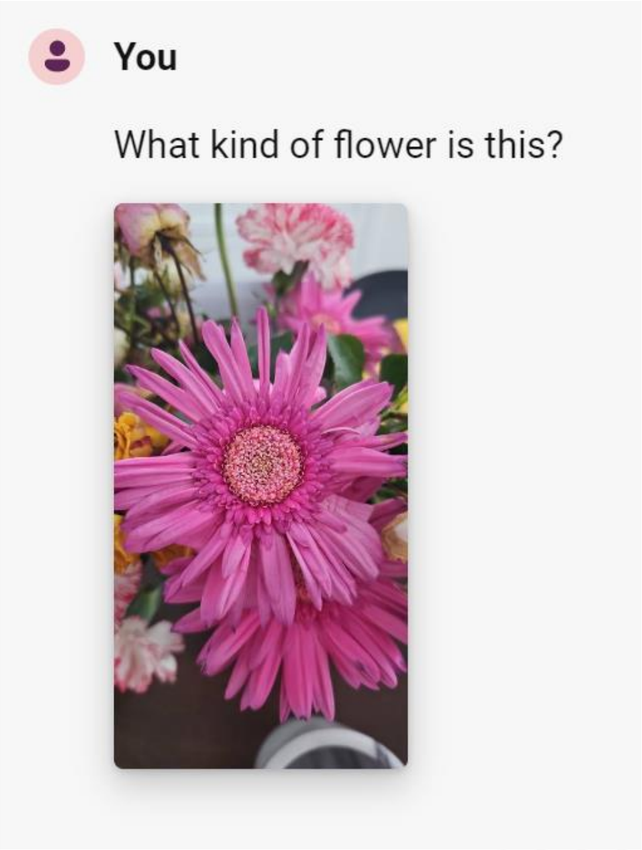
Organizations can create their own plugins for their users

Demo

Doing more with Copilot by using Plugins

Using Copilot Visual and Audio Capabilities

Show Copilot What You See



A picture is worth 1,000 words

You can upload pictures as part of your Copilot Prompts and ask Copilot

- Details about the topic in the image
  - Follow up questions

Talk to Copilot – And It Can Answer Back

You can simply use your voice to interact with Copilot

Works on both desktop and mobile devices

Copilot can also read answers back to you
