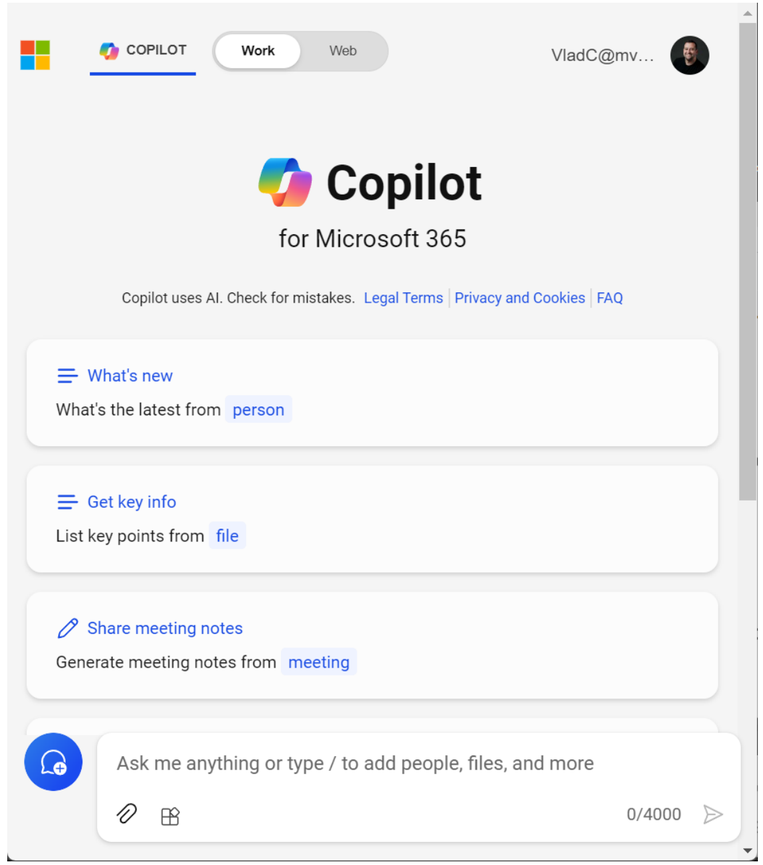
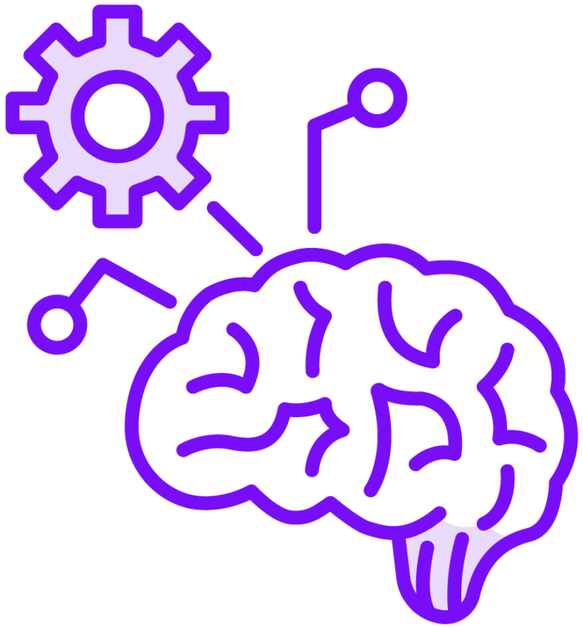
Copilot in Windows



https://copilot.microsoft.com/

# Copilot with Graph-Grounded Chat



**Your standalone AI assistant that has access to all your Microsoft 365 data**

- Teams chats / messages
- E-mails
- Calendar
- Files in SharePoint and OneDrive

**It's not integrated to a specific app like other Copilot products**

**You can ask it anything about your data across Microsoft 365**

# Sample Prompts

Summarize Teams messages where I was mentioned last week

Let me know what happened in the last 24 hours so that I can prepare for my day

Find the latest about Project Alpha. What's the current timeline? When are deliverables due?

When is my next meeting with [person]

Using information in [document], write a fun, catchy email inviting our customers to come see us at our booth during next month's conference.
