Summarizing Presentations

Receive a long slide deck and need to get to the gist of the main points quickly? Copilot in PowerPoint can read through the deck and give you a bulleted summary so you can understand the key points.

Prompt Examples

Summarize this presentation

Show key slides

Show action items

Demo

Summarizing presentations with Copilot in PowerPoint

Improving Your Slides

Copilot can also step in to make what you have even better! From organizing slides or making them better, Copilot is there to help.

Prompts to Improve Your Presentation

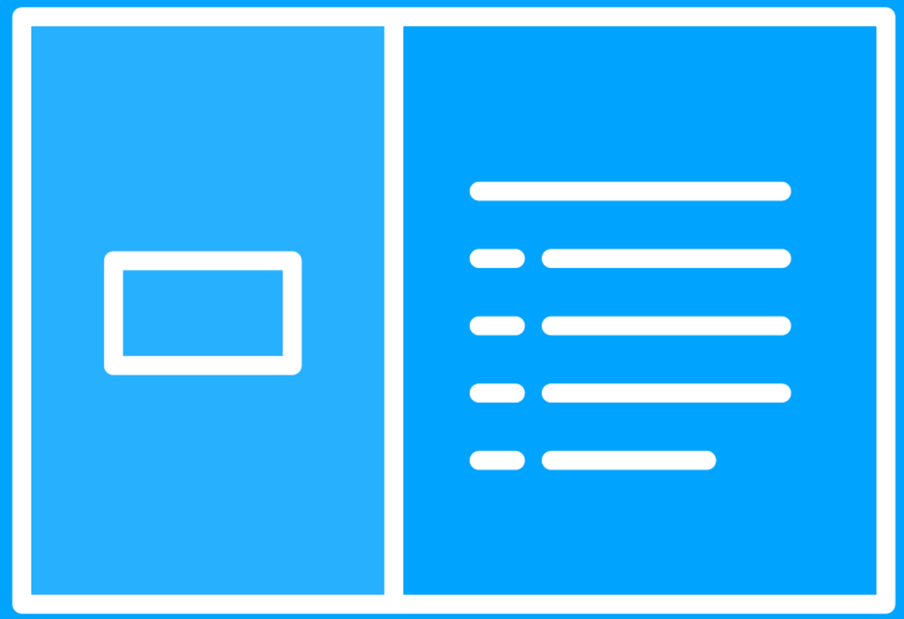
Organize this presentation

Add a visual about [Subject] on this slide

Add animations to this slide

Demo

Improving our presentations with Copilot



Creating a Presentation with Copilot

Copilot can help us draft presentations, and even reference existing files in Microsoft 365!

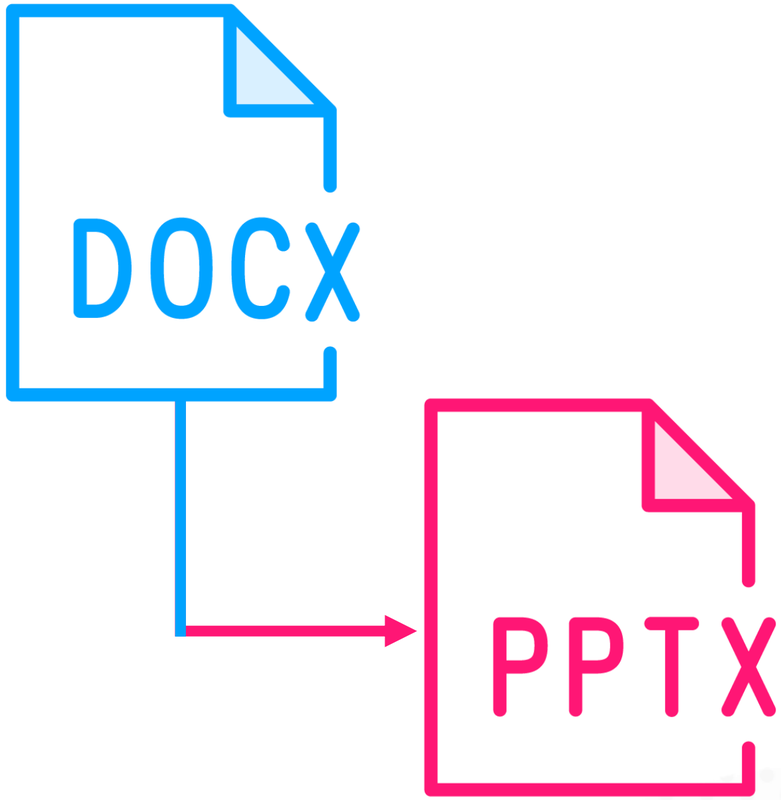
Prompt Examples

Create a presentation around [Subject]

Add a slide on [Subject]

Create a presentation about [subject] and make it 15 slides - include some history, examples, and why it’s important for our company

Creating a Presentation from a Word Document



You can transform a Word document into a presentation

Use /forward slash to reference your Word document

Copilot works best with Word documents that are less than 24 MB

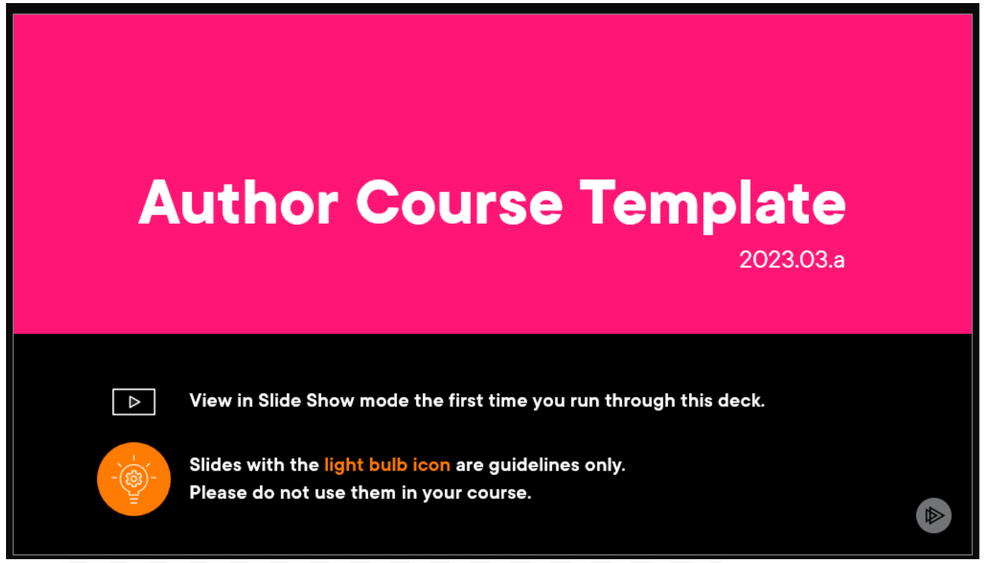
- Under 20 pages recommended

Using a Company Branded Template

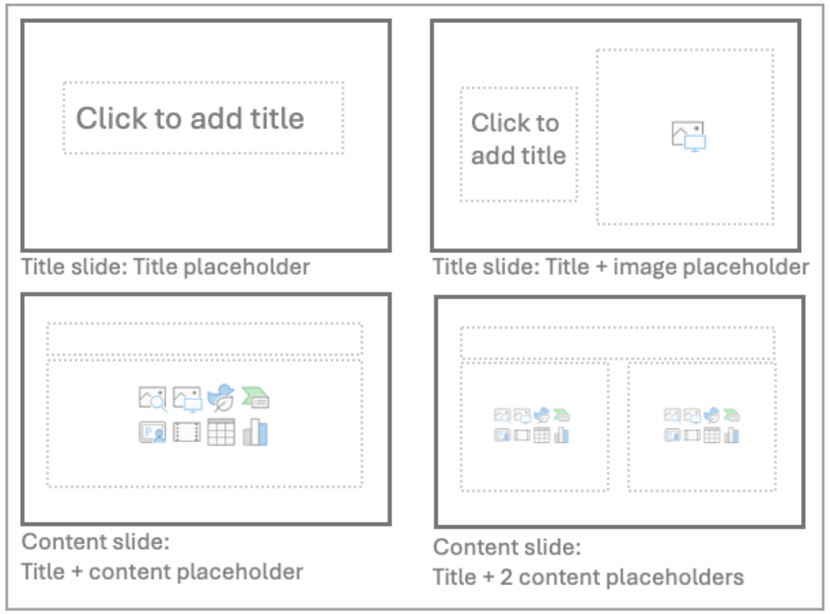
Copilot can create presentations using your company branded template

- The template would preferably be in your Organizational Assets Library
  - Must be configured by an administrator in SharePoint Online

Your template needs to follow some requirements for it to work properly



Minimum Template Requirements



Your slide master requires these layouts, at the minimum:

- **Title slide**: Title placeholder
- **Title slide**: Title + image placeholder
- **Content slide**: Title placeholder + content placeholder
- **Content slide**: Title placeholder + 2 content placeholders

Recommended Template Layouts

Title slide: Title placeholder

Title slide: Title placeholder + text placeholder

Title slide: Title placeholder + image placeholder

Title slide: Title placeholder + subtitle + image placeholder

Content slide: Title placeholder + content placeholder

Content slide: Title placeholder + content placeholder + image placeholder

Content slide: Title placeholder + 2 content placeholders

Content slide: Title placeholder + table placeholder
