Microsoft Copilot Studio: Build a Chatbot

Tim Warner

Principal Author, Pluralsight

TechTrainerTim.com

Overview

Understand basic chatbot components

- Topics, entities, actions, plugins

Deploy a GPT-boosted bot

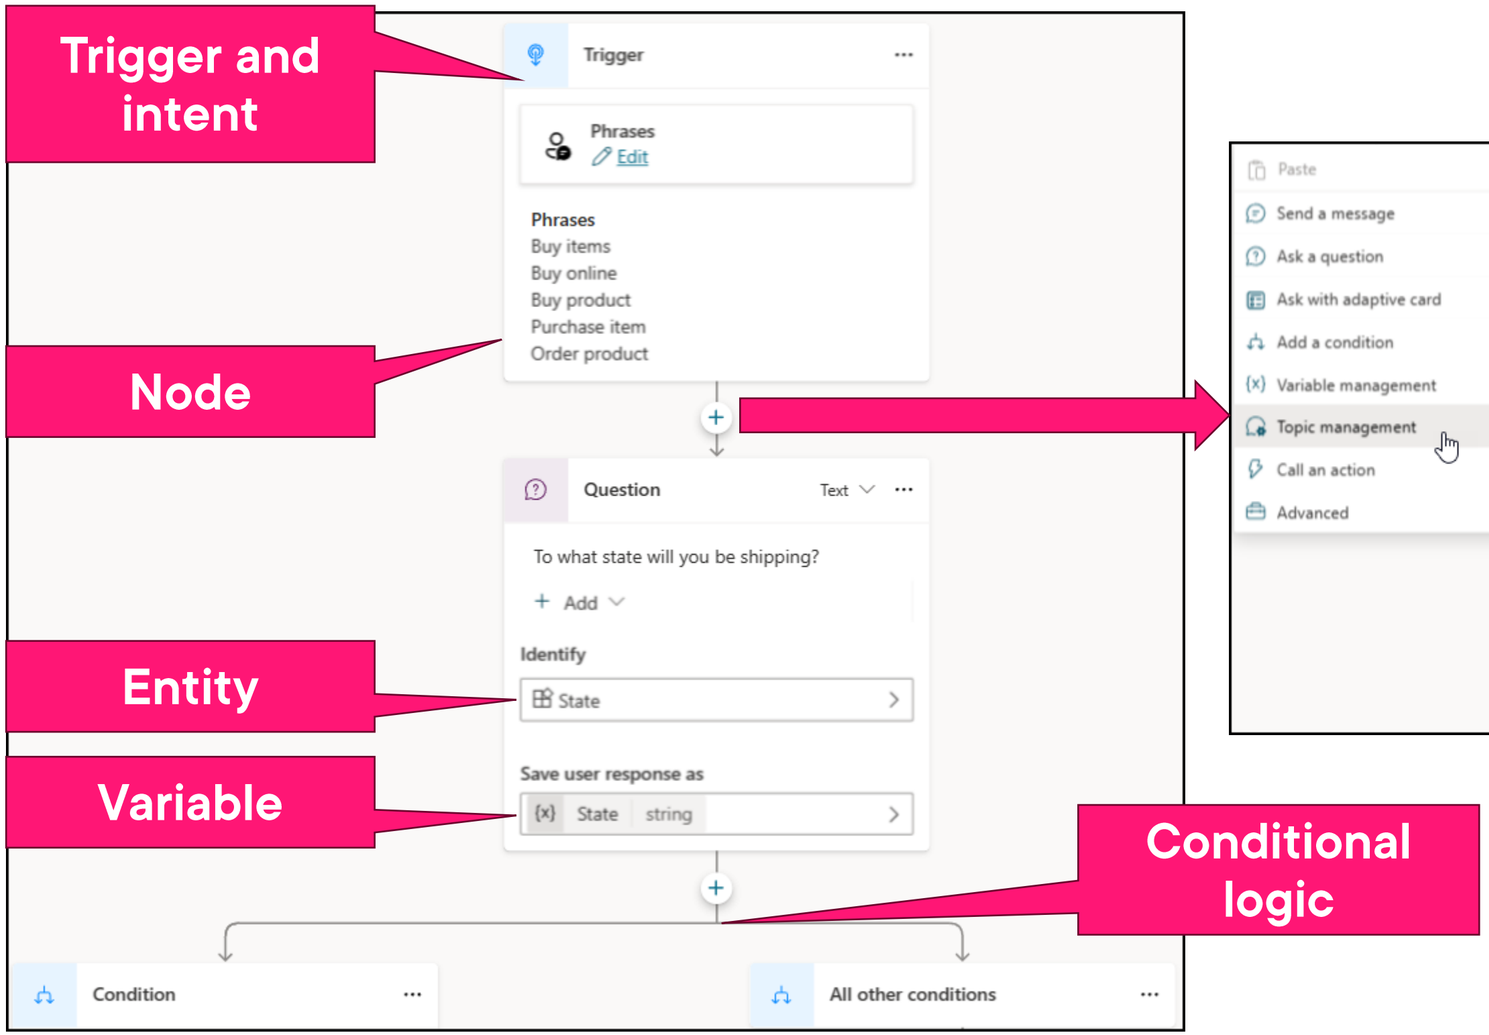
- Chat via the Microsoft Teams channel

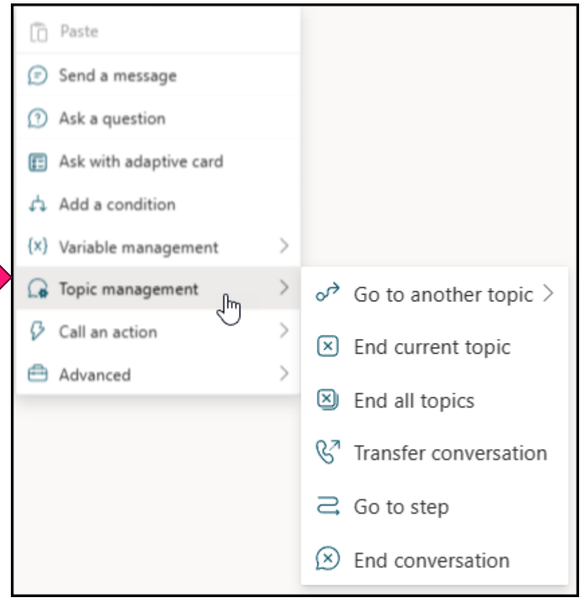
Microsoft Copilot Studio: Understand Chatbot Components

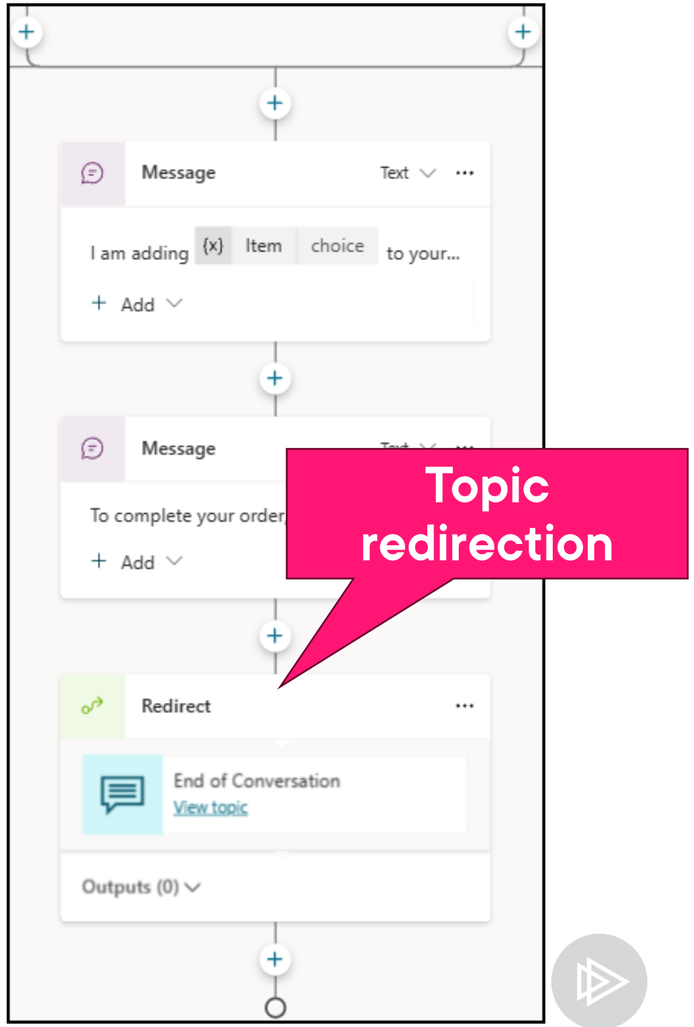
Referral: Vlad Catrinescu

Microsoft Copilot Studio Bot Components

A conversation can have one or more topics

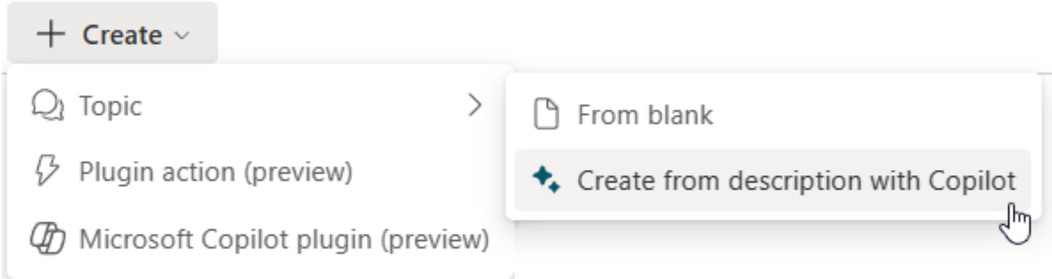




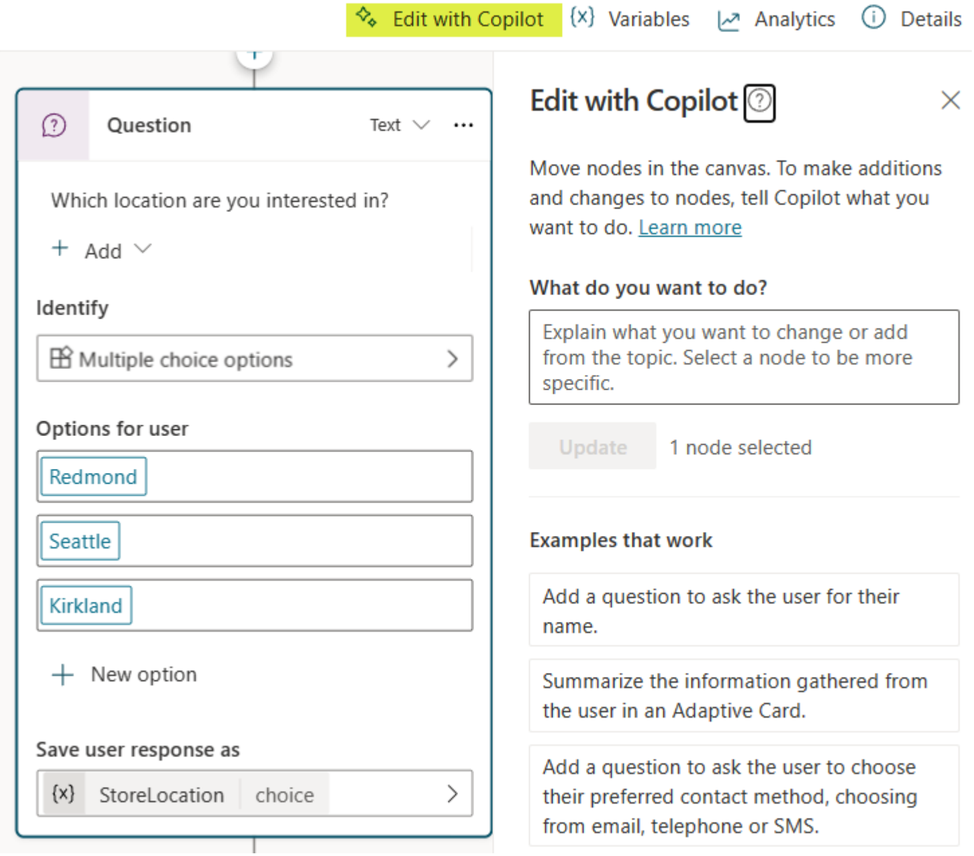


GPT Enrichment Avenues

Topic creation

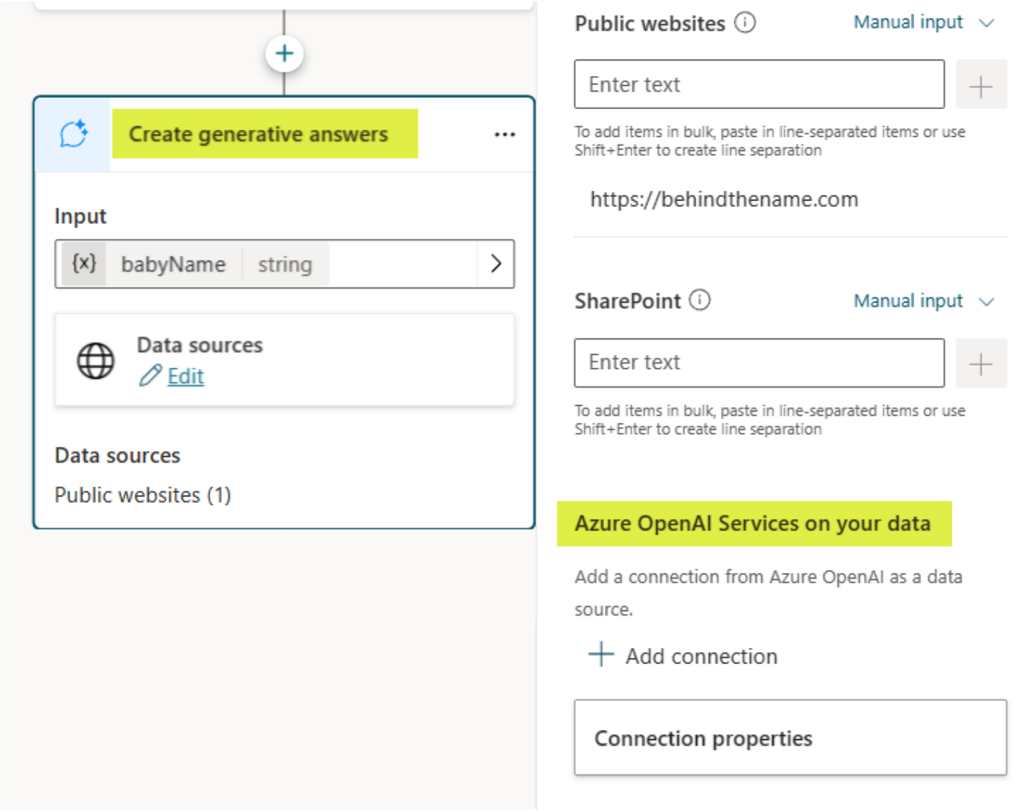


Node logic



GPT Enrichment Avenues

Generative answers



Build, Deploy, and Monitor a Microsoft Copilot Studio Bot

Demo

1

Create a new baby name origin chatbot

Enrich with GPT the entire way

Upload baby name document

Summary

Consider diving deeper into other members of the Power Platform family:

- Power Automate
- Power BI

Thanks so much for your time and attention!
