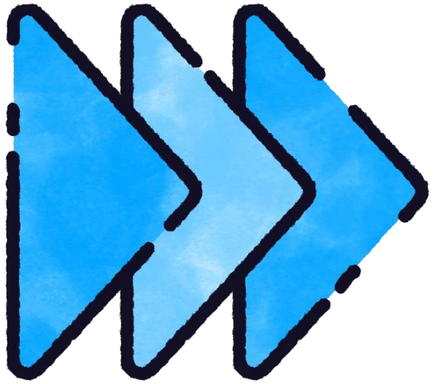
Data



Google Analytics demo account

Google Merchandise Store

The data contains:

- Traffic source
- Content data
- User data
- Transaction data

Demo: Exploring Google Merchandise Store Data

Demo: Leveraging Analytics Intelligence for Automated Insights

AI Insights built into Google Analytics

Prebuilt AI-generated questions

Instantly queried and answered in one click

Write your question in your own way

The AI uses that input to query the database

Retrieves accurate and relevant information

A fantastic way to gather valuable insights without being an expert on running reports.

Thank you for your attention!
